## Cinquesegni

---

Cinquesegni comes in 2008 from the desire of five friends to give a new light to the wine tradition, bringing together two Italian excellences: Wine and Art.

It is a project inspired by the five signs which each of the founders has engraved in their vineyard with the promise to realize their dream together.

The enhancement of the terroir, the protection of the winemaking tradition and the continuous pursuit of the quality on one hand, and the innovation in design inspired by Italian art, on the other hand, created a unique product distinguished by a particular ultra-thin ceramic label patented in the main Countries worldwide.

The Company is made up of a young and dynamic group, supported by an expert team of enologists who are able to offer a high level of quality in the respect of the traditions of the different production areas.
