
Chateau Lamothe-Cissac

Chateau Lamothe-Cissac is a delightful property, in the heart of the Haut-Medoc, neighbouring Pauillac and Saint-Estephe, in the village of Cissac which is becoming increasingly familiar to claret lovers as a source of very fine wine.

Estate: 33 Hectares, approximately 82.5 acres.

Vineyard: 58% Cabernet Sauvignon and 2 % Cabernet Franc giving firmness, longevity and nobility. 35% MErlot - richness and smoothness - suppleness, 5% PEtit Verdot - breeding and distinction. The average age of the vines is an enviable 30 years, a vital factor in the quality of the wine.

Soil: Alkaline sub-soil with some areas covered with a gravelly top-soil, others chalky clay, thus bestowing excellent balance.

Production: 180,000 bottles

The Wine: The wine is vinified traditionally but in a modern cellar. It is aged in oak casks (30% of new barrels every year) and bottled, always at the Chateau, after fining and light filtration. The highly prestigious "Vieilles Vignes" cuvee which is also subject to very strict rules, is vinified at higher temperatures-controlled fermentation and is aged in new oak barrels, so as to obtain a highly rich concentration comparable to the crus classes of Pauillac.

Chateau Lamothe-Cissac: a wine that is extremely pleasant, rich, deep in colour, and features an elegant bouquet and a fine flavour that is full of charm and breeding. Enjoy it with all the richest meats, poultry and with all mild cheeses.
